NEWMAN PROPOSED AMENDMENT NO. 7

0000120198

TIME/DATE PREPARED: November 22, 2010

COMPANY: Arizona Public Service Company

AGENDA ITEM NO. 27

DOCKET NO(S). E-01345A-10-0166
E-01345A-10-0262

OPEN MEETING DATE: 11-22-10

Page 19, line 16, INSERT New Finding of Fact subsection to Mayes Proposed Amendment 4, AFTER "including the Four Corners Power Plant units 1 through 3":

- "Consider Third Party Administration of Renewable Energy Standard Tariff (REST) programs. The Commission believes that it is in the best interests of ratepayers and utilities to consider utility-managed v. third party administered REST programs. There are a number of Third Party administered programs around the country and Arizona ratepayers and utilities can benefit from lessons learned in other jurisdictions. We would like the utilities to consider whether Third Party Administration might be appropriate for Arizona's rural electric co-operatives as well as investor owned utilities.
- Consider recycling solar photo voltaic (PV) panels. There are a number of programs around the world where recycling of PV panels is required. The Commission believes that it would be in the best long-term interests of ratepayers and utilities to review PV recycling programs and determine whether this would work for Arizona."
